

## Pillow Space

Privacy & acoustic furniture

## Acoustic specifications

Design Robert Bronwasser

Pillow Space is a mobile and acoustic divider for any open space. The left or right sides can be equipped with a wardrobe bar, shelves, brochure panels and/or door panels. The top end can also be provided with an integrated planter. Drawers will help you keep your desk neat and tidy, while lockers will hold your personal belongings. With integrated LCD screens you can give your presentation wherever you want. And the full-size whiteboard can be used for brainstorming sessions with your colleagues.

Available with standard and premium acoustic properties. Panel mounted accessories only in combination with standard acoustic properties, premium panels cannot be equipped with panel accessories. The wide range of sizes, accessories, fabrics and colours allow you to use Pillow Space as a central element.

Available in acoustic **class A** (premium panel) and acoustic **class C** (standard panel)

\*Premium panels cannot be equipped with panel mounted accessories.

**Peutz tested**

**ISO 354:2003**
