

Piqnic

Design by Peter van de Water

Bring a touch of the outdoors into your workday

That relaxed, easy-going feeling of being outdoors, sharing a table and enjoying the moment, is exactly what we aimed to bring inside. With this in mind, designer Peter van de Water created the Piqnic series.

Designed especially for offices and communal spaces, Piqnic invites people to

connect, collaborate, share lunch, or simply relax with a cup of coffee. The series has grown into a family of high and low tables, benches, and stools. All sharing the same clean and distinctive design language.

Piqnic. Let's bring people together.
